

## Cadishead Primary Homework Grid EYFS

During this difficult time we will be providing a weekly activity grid to help your child to continue their learning. As with the homework grid select 6 activities that you and your child would like to do. Colour in the ones that you have chosen. You can stick this into your homework books or just send some pictures on Dojos.

<p style="text-align: center;"><b><u>Reading</u></b></p> <p>This week I have set some phonics activities. These will be sent by message to your child as I have linked them to phonics groups.</p>	<p style="text-align: center;"><b><u>Personal and Social Development</u></b></p> <p>Discuss with your child what it is like to be at home all the time.</p> <p>I have put a page from 'Coronavirus a book for children' on the class story for you to look at and discuss with your child if you would like to.</p>	<p style="text-align: center;"><b><u>Understanding of the World</u></b></p> <p style="text-align: center;"><b><u>Carry out a bird survey</u></b></p> <p>You could do this through the window or sitting very quietly in the garden.</p> <p>Use the chart with pictures provided.</p> <p>Choose a time that you can sit to watch the birds each day. You will need to sit still and look carefully. Maybe 15 mins twice a day.</p> <p>Put a mark in the box for each bird that you see.</p> <p>Count up how many of each bird you saw in a week.</p> <p>(If you made a bird feeder last week you might have encouraged more birds into your garden.)</p>
<p style="text-align: center;"><b><u>Creative and Expressive arts</u></b></p> <p style="text-align: center;"><b><u>Create your own bird.</u></b></p> <p>Remember that birds have 2 wings, 2 legs and a beak. You will need to use something to create feathers to cover its body. It could be a bird that you have seen or it might be a new species that you have 'designed' yourself.</p> <div style="text-align: center;"> </div>	<h1 style="font-size: 2em;">Have Fun!</h1> <p>Don't forget to share anything you do with your teacher on class Dojos.</p> <p>We hope you have lots of fun.</p> <div style="text-align: center;"> </div>	<p style="text-align: center;"><b><u>Housework</u></b></p> <p style="text-align: center;">Tidy your bedroom.</p> <p>That means picking up laundry, putting toys away, throwing any rubbish in the bin and making your bed.</p> <p style="text-align: center;">If you share with a brother or sister you could do this together.</p>
<p style="text-align: center;"><b><u>Literacy/topic</u></b></p> <p>Look on the class story on Dojos to find the story of the Cheeky Sparrow.</p> <p>Ask a grown up to read it to you and listen very carefully.</p> <div style="text-align: center;"> </div> <p style="text-align: center;">Can you answer these questions</p> <p style="text-align: center;">How many different birds are in the story?</p> <p style="text-align: center;">Which one did the sparrow meet first?</p> <p style="text-align: center;">Can you describe a blue tit?</p> <p style="text-align: center;">How does he know that the robin wasn't a sparrow?</p> <p style="text-align: center;">There is also a powerpoint if you want to learn more about garden birds.</p>	<p style="text-align: center;"><b><u>Mathematics</u></b></p> <div style="text-align: center;"> </div> <p style="text-align: center;">Can you make your own adding machine. You could make this in any way that you want. You could decorate it, make it into an animal, a monster, an alien. It's up to you. You can use any objects that fit down the tube or cup to add amounts together. Remember to count the total carefully.</p> <p style="text-align: center;">( We are working on adding single digit numbers to single digits to achieve the Early learning goal)</p>	

## Communication and Language

Make your own journey stick.

Collect small things as you go out on a walk and attach them to a stick to record your journey. Share your journey with someone who didn't go with you. Talk to them about what you found and where you found it.

## Physical Development

Using an old tissue box, egg box or a piece of cardboard, cut some holes and use a shoelace to thread through in a criss cross pattern and tie at the end.

## Healthy Living

It is important to keep your body and mind healthy. A great way to do this is with yoga! Have a go at following these yoga instructions on Cosmic Kids Yoga on Youtube:
